

## Bubblers

Acceptable bubblers have a flow of 0.33 gallons per minute (gpm) or less and they are not adjustable. The following bubblers meet this requirement. **Other manufacturers may have bubblers that meet these requirements as well.**

### RainBird

1401 - Bubbler Nozzle

0.25 gpm, trickle pattern nozzle

### Hunter

MSBN-25Q- Bubbler Nozzle

0.25 gpm, trickle pattern nozzle
