

Weather-based Irrigation Controllers

Eligible weather-based irrigation controllers use weather data (cellular, WiFi or sensor) and have rain shut-off capability. The following controllers meet this requirement. **Other manufacturers may have controllers that meet these requirements as well.**

rachio

b.hive

skydrop

NETRO

Hunter
HYDRAWISE

Hunter: Solar Sync

RainBird: LNK WiFi

Approved models when using weather sensor:

RAIN BIRD ESP-TM2 Series with LNK WiFi

Hunter X-CORE with Solar Sync
Pro-C with Solar Sync

RAIN BIRD
ST8-WiFi
