

For your rebate application to be approved, the photographs provided must meet the following criteria:

1. Must be in color.

2. Cannot be up-close shots of grass or plants. We recommend you stand back far enough to include your home, street, or fence as a reference point.

3. Cannot be an online image such as Google street view.

4. Must include enough photographs to represent the converted area footage.
5. The photographs provided must be a current representation of the yard's state.
