

REGULAR MEETING 8:00 A.M. OPERATIONS CENTER - 1200 SOUTH GENE AUTRY TRAIL - PALM SPRINGS - CALIFORNIA

Desert Water Agency operates independently of any other local government. Its autonomous elected board members are directly accountable to the people they serve. The Agency is one of the desert's two State Water Contractors and provides water and resource management, including recycling, for a 325-square-mile area of Western Riverside County, encompassing parts of Cathedral City, Desert Hot Springs, outlying Riverside County and Palm Springs.

1. **PLEDGE OF ALLEGIANCE**
2. **APPROVAL OF MINUTES -** January 21, 2020 **STUART**
3. **GENERAL MANAGER'S REPORT** **KRAUSE**
4. **COMMITTEE REPORTS -** A. Executive – January 30, 2020 **BLOOMER**
5. **PUBLIC COMMENT:** Members of the public may comment on any item not listed on the agenda, but within the jurisdiction of the Agency. In addition, members of the public may speak on any item listed on the agenda as that item comes up for consideration. Speakers are requested to keep their comments to no more than three (3) minutes. As provided in the Brown Act, the Board is prohibited from acting on items not listed on the agenda.
6. **DISCUSSION ITEMS**
 - A. State Water Contractor's Meeting – January 16, 2020 **RIDDELL**

Property: APN 501-441-012 and APN 501-433-008
Agency Negotiators: Mark S. Krause, General Manager and Steve Johnson, Asst. General Manager
Negotiating Parties: DWA and Trevor Whitcomb
Under Negotiation: Price and terms

G. CONFERENCE WITH LEGAL COUNSEL – PENDING LITIGATION

Pursuant to Government Code Section 54956.9 (d) (4)

Possible Intervention in Case: AT&T vs. County of Riverside

H. PUBLIC EMPLOYEE PERFORMANCE EVALUATION

Pursuant to Government Code Section 54957

Title: General Manager

10. RECONVENE INTO OPEN SESSION – REPORT FROM CLOSED SESSION

11. ADJOURN

Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, as required by Section 202 of the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting is asked to contact Desert Water Agency's Assistant Secretary of the Board, at (760) 323-4971, at least 48 working hours prior to the meeting to enable the Agency to make reasonable arrangements. Copies of records provided to Board members which relate to any agenda item to be discussed in open session may be obtained from the Agency at the address indicated on the agenda.

**MINUTES
OF THE REGULAR MEETING
OF THE
DESERT WATER AGENCY
BOARD OF DIRECTORS**

2

January 21, 2020

DWA Board: Joseph K. Stuart, President)
Kristin Bloomer, Vice President)
Craig Ewing, Secretary-Treasurer)
Patricia G. Oygur, Director)
James Cioffi, Director)

DWA Staff: Mark S. Krause, General Manager)
Steve Johnson, Assistant General Manager)
Esther Saenz, Finance Director)
Sylvia Baca, Asst. Secretary of the Board)
Kris Hopping, Human Resources Director)

Consultant: Michael T. Riddell, Best Best & Krieger)

Public: David Freedman, P.S. Sustainability Commission)

18646. President Stuart opened the meeting at 8:00 a.m. and asked everyone to join Director Oygur in the Pledge of Allegiance. **Pledge of Allegiance**

18647. President Stuart called for approval of the December 17, 2019 Regular Board Meeting Minutes. **Approval of 12/17/19 Regular Board Mtg. Minutes**

Director Oygur moved for approval. After a second by Secretary-Treasurer Ewing, the minutes were approved by the following vote:

AYES: Oygur, Ewing, Stuart, Bloomer, Cioffi
NOES: None
ABSENT: None
ABSTAIN: None

President Stuart called for approval of the January 7, 2020 Regular Board Meeting Minutes. **Approval of 01/07/20 Regular Board Mtg. Minutes**

Secretary-Treasurer Ewing noted a correction on Page 9104 to move the last paragraph (under number 18639) before the motion so it would be included in the vote.

Secretary-Treasurer Ewing moved for approval, noting the correction. After a second by Director Cioffi, the minutes were approved with the correction noted by the following vote:

**Approval of 01/07/20
Regular Board Mtg.
Minutes
(Cont.)**

AYES: Ewing, Cioffi, Bloomer, Stuart
NOES: None
ABSENT: None
ABSTAIN: Oygur (Due to her absence)

18648. President Stuart called upon General Manager Krause to provide an update on Agency operations.

**General Manager's
Report**

Mr. Krause provided an update on Agency operations and noted his meetings and activities for the past several weeks. He noted he will be reporting on an annual basis on stolen, repaired or replaced fire hydrants and backflow devices, including the water wasted.

18649. President Stuart noted the minutes for the January 6, 2020 Conservation & Public Affairs Committee meeting and the January 14, 2020 Executive Committee meeting were provided in the Board's packet.

**Committee Reports –
Conservation & Public
Affairs 01/06/20
Executive 01/14/20**

18650. President Stuart opened the meeting for public comment.

Public Comment

David Freedman, P.S. Sustainability Commission reported the City of Palm Springs turf conversion at the airport is making progress and they are working with Mrs. Metzger, Outreach & Conservation Manager.

18651. President Stuart called upon Secretary-Treasurer Ewing to present an overview of financial activities for the month of December 2019.

**Secretary-Treasurer's
Report (December)**

Secretary-Treasurer Ewing reported that the Operating Fund received \$3,216,394 in Water Sales Revenue, \$118,256 in Reclamation Sales Revenue, and \$74,135 from the City of Palm Springs for the Option Property 2020 Lease. \$1,449,558 was paid out in Accounts Payable. Year-to-date Water Sales are 7% under budget, Year-to-date Total Revenues are 4% under budget and Year-to-date Total Expenses are 13% under budget. There were 22,807 active services as of December 31, 2019 compared to 22,762 active services as of November 30, 2019.

Operating Fund

Reporting on the General Fund, Mr. Ewing stated that \$5,367,631 was received in Property Tax Revenues, and \$77,383 in Groundwater Assessments (private pumpers). \$624,949 was paid in State Water Project charges (YTD \$6,652,391).

General Fund

Reporting on the Wastewater Fund, Mr. Ewing reported \$2,032 was received in Sewer Contract payments. There are a total of 30 contracts with total delinquents of 7 (23%). \$75,550 was paid out in Accounts Payable.

**Secretary-Treasurer's
Report (December)**
(Cont.)
Wastewater Fund

18652. President Stuart called upon Assistant General Manager Johnson to present staff's request for Adoption of Resolution No. 1229, Establishing Rates, Fees & Charges for Sewer Service and Adoption of Resolution No. 1230, Establishing Rates, Fees & Charges for Domestic Water Service, Backup Facility, Supplemental Water Supply Development & Service Connection Charges.

Items for Action:
Request Adoption of
Resolution's No. 1229
Establishing Rates,
Fees & Charges for
Sewer Service and No.
1230, Establishing
Rates, Fees & Charges
for Domestic Water
Service

Mr. Johnson noted that with the signing of Senate Bill 998 (SB 998) on September 28, 2018 the Agency must comply with the Act by February 1, 2020. He reported that the purpose of the Act is to provide additional procedural protections to residential water customers before the discontinuation of water service for nonpayment and one step in complying with SB 998 was to develop a policy for discontinuation of residential water service for nonpayment, which the Agency satisfied with the adoption of Resolution No. 1224 at the December 17, 2019 Board Meeting. Mr. Johnson noted as a result of adopting Resolution No. 1224, the Agency must also revise Resolution No. 1211 (Resolution establishing Rates, Fees & Charges for Domestic Water Service, Backup Facility, Supplemental Water Supply Development & Service Connection Charges). He noted that Staff proposes to replace Resolution No. 1211 with Resolution No. 1230, to include the following language to address SB 998: *Customers demonstrating financial hardship, as outlined in the Agency's Policy on Discontinuation of Residential Water Service, shall pay a reduced service restoration fee of \$50 during Agency normal working days and during normal working hours.*

Mr. Johnson then explained that along with the revision to satisfy SB 998, staff has also taken this opportunity to recommend other changes, revisions, and additions that will affect Resolution No. 1211 (water) and Resolution No. 1212 (sewer). The following outlines the proposed changes, revision, and additions that are proposed for Resolution No. 1229 (sewer) and Resolution No. 1230 (water): 1) Supplemental Imported Water Capacity Charges (SIWCC) Change; 2) Backup Facility Charge Zone Designation Change; 3) Plan Check Fee Revisions; 4) Development Review Fee Revision; 5) Fire Flow Model and Verification Fees Addition; and 6) Main Extension By Applicant Inspection Deposit Addition. He then noted that to comply with SB 998 and to implement the proposed changes, revisions, and additions as summarized, staff requests the adoption of Resolution No. 1229 Establishing Rates, Fees & Charges for Sewer Service, and Resolution No. 1230 Establishing Rates, Fees & Charges for Domestic Water Service, Backup Facility, Supplemental Water Supply Development & Service Connection Charges.

Secretary-Treasurer Ewing made a motion to approve staff's request. After a second by President Stuart, the motion carried by the following vote:

Items for Action:

(Cont.)

Resolution No. 1230
Adopted

18653. President Stuart called upon Finance Director Saenz to present staff's request for an Amendment of the 2019/2020 Operating & General Fund Budgets regarding Palm Oasis Area Land Purchase Budget.

Mrs. Saenz reported that in 2013, the Agency sought to purchase a parcel of land in the Palm Oasis area for the construction of future facilities and established work order 13-119-L in the Operating Fund for \$78,300. She noted with the adoption of the 2019/2020 Operating Fund Fiscal Budget, work order 13-119-L was increased from \$78,300 to \$675,000 for the purpose of purchasing a larger parcel for future treatment facilities. Then on December 17, 2019, the Board authorized a budget augmentation to work order 13-119-L in the amount of \$110,000 for the purchase of an additional acre parcel. Mrs. Saenz explained this \$110,000 budget augmentation was not funded by the Operating Fund, and was instead funded by the General Fund Reserve for Land Acquisitions. The intended use of the funds has now been specified for the purposes of constructing water treatment facilities and in accordance with past practices and policy, the construction of these future facilities will be funded by the General Fund and the land purchase should also be funded by the General Fund. Staff is requesting that \$675,000 be allocated from the General Fund Reserve for Land Acquisitions to a new General Fund work order for the Palm Oasis area land purchase. The new General Fund work order budget will be \$785,000, which includes the

Director Cioffi made a motion to approve staff's request. After a second by Secretary-Treasurer Ewing, the motion carried by the following vote:

AYES: Cioffi, Ewing, Stuart, Bloomer, Oygard
NOES: None
ABSENT: None
ABSTAIN: None

18654. President Stuart called upon General Manager Krause to provide a report on the December Water Use Reduction Figures.

Discussion Item:

December Water Use
Reduction Figures

Mr. Krause reported that the Agency and its customers achieved a 17.4% reduction in potable water production during December 2019 compared to the same month in 2013. He noted the cumulative savings over the last twelve months is 19.7%.

18655. Director Cioffi noted his attendance at the Groundwater Management Districts Association (GMDA) Conference in South Florida. While there, he attended the NWRA Groundwater Caucus Meeting and the GMDA Board Meeting. Director Cioffi mentioned that DWA is the only member from California and they would like more representatives from the state.

Report on GMDA

Conference Attendance

18656. Secretary-Treasurer Ewing reported the Board received a letter from a customer regarding the Agency's scheduled work on Indian Canyon. There was concern on the timing, due to the recent work conducted by the City. He requested staff provide further information on the timing and length of this work.

Director's

Comments/Requests

Secretary-Treasurer
Ewing

In response to President Stuart's question about the recent news article and misinformation, Assistant General Manager Johnson stated Agency construction work would be for two days and final paving at another time.

It was noted that Outreach & Conservation Manager Metzger works closely with the City's Organized Neighborhoods (ONE-PS) staff on upcoming events and projects for the Agency.

18657. At 9:05 a.m., President Stuart convened into Closed Session for the purpose of Conference with Legal Counsel, (A) Existing Litigation, pursuant to Government Code Section 54956.9 (d) (1), Agua Caliente Band of Cahuilla Indians vs. Coachella Valley Water District, et al; (B) Existing Litigation, pursuant to Government Code Section 54956.9 (d) (1), Mission Springs Water District vs. Desert Water Agency; (C) Existing Litigation, pursuant to Government Code Section 54959.9 (d) (1), Albrecht et al vs. County of Riverside; (D) Existing Litigation, pursuant to Government Code Section 54959.9 (d) (1), Abbey et al vs. County of Riverside; and (E) Exposure to Litigation, pursuant to Government Code Section 54956.9 (d) (2), Alan Neil Freiman et al vs. Safari Park, Inc.

Closed Session:

A. Existing Litigation – ACBCI vs. CVWD, et al.
 B. Existing Litigation – MSWD vs. DWA
 C. Existing Litigation – Albrecht et al vs. Riverside County
 D. Existing Litigation – Abbey et al vs. Riverside County
 E. Exposure to Litigation – Alan Neil Freiman, et al vs. Safari Park, Inc.

18658. At 11:06 a.m., President Stuart reconvened the meeting into open session and announced there was no reportable action taken.

Reconvene – No Reportable Action

18659. In the absence of any further business, President Stuart adjourned the meeting at 11:07 a.m.

**GENERAL MANAGER'S REPORT
FEBRUARY 4, 2020**

San Joaquin Delegation to the Governor Regarding SWP Permit Application

A large delegation of San Joaquin elected representatives sent a letter to the Governor regarding DWR's 2081 permit application (See attached). The application needlessly reduces the SWP's annual yield by an estimated 200,000 acre-feet. The delegation respectfully requests that the Governor direct DWR to withdraw its 2081 permit application and resubmit the application using the proposed project described in the Draft EIR, which DWR determined has no significant impacts to the environment.

California Legislature

January 16, 2020

The Honorable Gavin Newsom
Governor, State of California
State Capitol
Sacramento, CA 95814

Dear Governor Newsom:

We would like to bring an emerging issue to your attention that further limits access to water supplies for the San Joaquin Valley, Silicon Valley and Southern California.

The Department of Water Resources (DWR) and the Department of Fish and Wildlife are developing operating procedures for the State Water Project (SWP) under section 2081 of the California Fish and Game Code. DWR wrote its Draft Environmental Impact Report (DEIR) for the 2081 permit based on the coordinated operations of the Central Valley Project (CVP) and the SWP which found that there are no significant impacts on the environment.

However, when DWR released the DEIR on November 21, 2019, it added restrictions to the operation of the SWP that are not required by section 2081. Including alternatives sometimes appropriate under CEQA to lessen environmental impacts; however, as DWR notes in the DEIR: "...the proposed project does not result in significant effects, thus the need to lessen does not exist."

Our communities have voiced their concerns about the additional, unneeded restrictions on the SWP to reduce water supplies available to them by as much as 200,000 acre-feet annually. The additional, unnecessary restrictions compound the severe impacts imposed by the State in our rural communities.

Several State mandates are acting in concert to reduce our water supplies. The Sustainable Groundwater Management Act, dedication of water for the Voluntary Agreements, the costs for repair and replacement of existing SWP facilities that are in the billions of dollars, and the State's decision this year to implement a restriction known as Fall X2 that cost the SWP more than 700,000 acre-feet of water, all reduces water supplies and increase costs for the 27 million Californians and 750,000 acres of farms served by the SWP. As a result, these mandates disproportionately affect our rural communities where farming is a major economic driver in providing upward mobility.

While we recognize that not all of these issues can be addressed, the State can avoid the loss of up to 200,000 acre-feet of water annually by resolving the current issue related to DWR's unnecessary restrictions on SWP operations. We respectfully request that you direct DWR to withdraw its 2081 permit application and resubmit the application using the proposed project described in the DEIR, which DWR determined has no significant impacts on the environment.

We also understand that this is a broadly felt issue and will be of interest to many members. We would be happy to coordinate a briefing for other members by staff from DWR and DFW.

Thank you for your time and attention to this issue.

Notification of CVWD and DWA's Intent to Participate in the Lake Perris Seepage Recovery Project

Under articles of the agreement between MWD and DWR regarding environmental analysis, planning and preliminary design of the Lake Perris Water Recovery Project, require MWD to offer CVWD and DWA, in writing, the opportunity to participate in the Project. MWD has offered CVWD and DWA the opportunity to participate in writing and have acknowledged receipt of the offer and expressed our interest in participating in the project in writing. The attached letter from MWD to DWR informs DWR that they have fulfilled their obligation and that CVWD and DWA have indicated our desire to move forward with participation in the Project. MWD requests that DWR move forward with drafting a new agreement that defines the terms of the MWD, CVWD and DWA's participation in proportion to the three parties proportionate use factors.

Porportionate Use Factors (PUF Factors)	
Agency	PUF
MWD	0.63302828
CVWD	0.32330202
DWA	0.04366970

THE METROPOLITAN WATER DISTRICT
OF SOUTHERN CALIFORNIA

Office of the General Manager

January 21, 2020

Mr. Pedro Villalobos
Chief
State Water Project Analysis Office
Department of Water Resources
P.O. Box 942836
Sacramento, CA 94236-0001

Dear Mr. Villalobos:

Notification of CVWD and DWA's intent to
participate in the Lake Perris Seepage Recovery Project

The purpose of this letter is to notify the State Water Project Analysis Office (SWPAO) that both Coachella Valley Water District (CVWD) and Desert Water Agency (DWA) have provided confirmation that they intend to participate in the Lake Perris Seepage Recovery Project (Project) (formerly called the Lake Perris Water Recovery Project), and to request that the Department of Water Resources (DWR) move forward in drafting a new agreement that defines the terms for their participation.

Under Article 6(b) of the May 15, 2017, Agreement for Funding Between the Department of Water Resources of the State of California and The Metropolitan Water District of Southern California (Metropolitan) for the Costs of Environmental Analysis, Planning and Preliminary Design of the Lake Perris Water Recovery Project, Metropolitan must offer CVWD and DWA, in writing, the opportunity to participate in the Project, and submit copies of the offer and the responses from CVWD and DWA to DWR. In accordance with this provision, Metropolitan has discussed the Project with both CVWD and DWA and, based on those discussions, has provided a draft term sheet pertaining to their participation. Through both verbal and written communication, CVWD and DWA have indicated their desire to move forward with participation in the Project (Enclosure 1 – Copies of Written Communication).

Metropolitan requests that DWR move forward with drafting a new agreement that defines the terms of Metropolitan, CVWD, and DWA's participation in proportion to the three parties' proportionate use factors, and is inclusive of its consideration of all past, ongoing, and future costs. Attached to this letter is the draft term sheet discussed by all three agencies (Enclosure 2 – Draft Term Sheet).

Mr. Pedro Villalobos

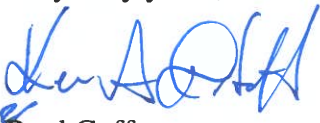

Page 2

January 21, 2020

It is Metropolitan's understanding that participation by CVWD and DWA is contingent upon review and approval by each agency's respective board of directors of the final agreement(s) specifying the terms of each agency's participation.

Please contact Jack Safely at (213) 217-6005, or by email at JSafely@mwdh2o.com if DWR would like to discuss this request.

Very truly yours,

For
Brad Coffey

Robert/Mark,

I wanted to re-start our discussion on the Lake Perris Seepage Recovery Project now that the EIR is well underway. DWR has also indicated that they are interested in setting up the agreements necessary to finance the future phases of the project (design and construction), so now seems like a good time to discuss CVWD's and DWA's interest in participating in the project. I have put together a very preliminary draft term sheet based on our previous discussions to provide a starting point/focus to the discussion.

Perhaps we could setup a conference call sometime in the next few weeks? My next two weeks are pretty packed, but my Oct 21, 22, and 24 are open. What does your availability look like?

Thank you,
Laura

DWR has also indicated that they are interested in setting up the agreements necessary to finance the future phases of the project (design and construction), so now seems like a good time to discuss CVWD's and DWA's interest in participating

in the project. I have put together a very preliminary draft term sheet based on our previous discussions to provide a starting point/focus to the discussion.

Perhaps we could setup a conference call sometime in the next few weeks? My next two weeks are pretty packed, but my Oct 21, 22, and 24 are open. What does your availability look like?

Thank you,
Laura

Laura Lamdin, P.E.

Summary of Lake Perris Seepage Recovery Project Sharing Agreement Terms

Parties

- The Metropolitan Water District of Southern California
- Coachella Valley Water District
- Desert Water Agency
- The California Department of Water Resources

Recitals/Givens

MWD/DWR are parties to the May 15, 2017 Agreement for the Preliminary Design of the Lake Perris Seepage Recovery Project. The goal of this project is to recover Perris Dam seepage water and delivery it to MWD in addition to its current allocated Table A water.

The Project is composed of two parts: 1) extraction wells for water recovery, and 2) a pipeline to connect the extraction facilities to Metropolitan's Colorado River Aqueduct. Project includes all necessary facilities for both Project parts.

The agreement also states that MWD shall offer DWA and CVWD the opportunity to share the recovered water. This agreement reflects that offer.

Terms

- Water recovered through the Lake Perris Seepage Recovery Project will be split between MWD, DWA, and CVWD by the same percentages as those for Reach 28J in Table B2 of Appendix B to DWRs Annual Bulletin 132

Agency	Fraction
MWD	0.63302828
CVWD	0.32330202
DWA	0.04366970
Total	1.00000000

- DWA and CVWD's portion of the water will be managed separately from the Exchange Agreement between MWD, DWA, and CVWD. Provision for sharing risk as it relates to Colorado River operations will be developed.
- Water will become available once it is produced
- Costs associated with the Lake Perris Seepage Recovery Project will be split between MWD, DWA, and CVWD by the same percentages as those for Reach 28J in Table B2 of Appendix B to DWRs Annual Bulletin 132.

Agency	Fraction
MWD	0.63302828
CVWD	0.32330202
DWA	0.04366970
Total	1.00000000

- Costs associated with the Lake Perris Seepage Recovery Project include costs incurred by both DWR and MWD for their portions of the Project and include, but are not limited to:
 - Geotechnical investigation of water availability
 - Environmental documentation and compliance
 - Preliminary Design
 - Design
 - Construction
 - Operations, Maintenance, Repair, Rehabilitation of facilities
- DWR Costs
 - DWR will bill design and construction costs through the annual Statement of Charges, including any adjustments for costs incurred prior to the date of this agreement.
- MWD Costs
 - MWD, CVWD, and DWA will prepare a cost reimbursement agreement to cover MWDs costs associated with the project.
- Costs associated with the Project would be in addition to those assessed by DWR for moving the water into Lake Perris, transportation, power, etc.
- MWD/DWR will prepare a project cost summary report that includes all DWR, MWD and consultant costs for use in cost sharing calculations.

2020 State Water Project (SWP) Allocation Increase from 10 to 15 Percent

DWR is increasing the allocation of 2020 SWP water for long-term contractors from 427,167 acre-feet to 635,434 acre-feet. Based on the recent precipitation, runoff and current water supply conditions, SWP supplies are projected to be 15 percent of most SWP contractors' 2020 requested Table A amounts, which totals 4,172,786 AF. Below is the revised 2020 SWP 15 percent allocation table. This results in an increased delivery of 2,787.5 AF.

SGMA Grant Update

Desert Water Agency and its partners in the Indio and Mission Creek Subbasins applied for grants for updates to the Sustainable Groundwater Management Act (SGMA) Alternative Plans through Proposition 68 Round 3.

In the Indio Subbasin, the partners (Desert Water Agency, Coachella Valley Water District, Indio Water Authority and Coachella Water Authority) requested:

Indio Subbasin grant request

Budget	Amount requested
Grant administration	\$50,000
Groundwater model update	\$426,190
Alternative plan update	\$500,000
New monitoring wells	\$1,023,808
TOTAL	\$1,999,998
AWARDED (tentative)	\$500,000

In late January, the Department of Water Resources issued a recommended awarded of \$500,000 for the Indio Subbasin. The partners will need to complete about \$2.55 M of work in order to update the plan and fulfill SGMA requirements. This means the Indio Subbasin partners will have to share about \$2.05 M in costs for the plan update. This amounts to about \$513,500 for Desert Water Agency's even share – the successful grant application saved DWA customers about \$125,000.

In the Mission Creek Subbasin, the partners (Desert Water Agency, Coachella Valley Water District and Mission Springs Water District) requested:

Mission Creek Subbasin grant request

Budget	Amount requested
Grant administration	\$50,000
Groundwater model update	\$478,756
Alternative plan update	\$500,000
New monitoring wells	\$928,525
TOTAL	\$1,957,281
AWARDED (tentative)	\$500,000

In late January, the Department of Water Resources issued a recommended awarded of \$500,000 for the Mission Creek Subbasin. The partners will need to complete about \$2.15 M of work in order to update the plan and fulfill SGMA requirements. This means the Mission Creek Subbasin partners will have to share about \$1.65 M in costs for the plan update. This amounts to about \$548,400 for Desert Water Agency's even share – the successful grant application saved DWA customers about \$166,700.

Comment letters on the draft awards are due Monday, February 10. DWA and its partners are evaluating comment strategy for both grant awards.

SWRCB Letter

On January 30, DWA submitted comments to the State Water Resources Control Board (SWRCB) on a monthly water use reporting rule (See attached). During the drought, monthly reporting was mandatory. After the emergency designation ended, the SWRCB no longer had the authority to require monthly reporting. The SWRCB is not working on rulemaking for a permanent requirement on monthly reporting.

If this rule goes into effect, DWA will have to change the way we pull water use numbers. Our comment letter expressed concerns about the data validity/timing and also the use of population figures in reporting.

Staff will keep the Board informed as this moves forward.

January 30, 2020

Ms. Jeanine Townsend, Clerk to the Board
State Water Resources Control Board
1001 I Street
Sacramento, CA 95814

Subject: Comment Letter – Proposed Urban Water Conservation Reporting Regulations

Dear Ms. Townsend,

Desert Water Agency (DWA) appreciates the opportunity to comment on this regulatory action to require permanent monthly reporting by urban water suppliers as contained in the Initial Statement of Reasons (ISOR) for the proposed Division 3, Chapter 3.5, Article 2 of Title 23 of the California Code of Regulations (hereafter “monthly reporting rule” or “rule”).

DWA was pleased to see the streamlined request but has some lingering concerns:

- Data Collection/Reporting Timeframe
- Residential Gallons Per Capita Per Day

Data Collection/Validity

Monthly reporting does not allow sufficient time for corrections that are necessary each month. Agencies already report annually through the Electronic Annual Report (eAR). On top of that, new long-term conservation legislation will require annual drought risk assessment reports. Desert Water Agency does not see significant benefits in tracking less accurate figures on a monthly basis in a non-emergency scenario. Additionally, customers, the agency and regulators experience confusion when there are inconsistencies between eAR figures and monthly reports. In order for people to have confidence in figures agencies or the State publish, we need consistency.

Given that there are more appropriate annual reports to draw from, the State Water Resources Control Board should not rely on monthly figures for policy development, emergency declarations or restrictions.

As a water agency with many groundwater wells and several stream sources, it will take a good amount of time to accumulate all of the information each month. Additionally, changing one item in report in the current portal requires you to resubmit the entire month’s data. We would encourage the Board to facilitate corrections and updates so the data is as accurate as possible without consuming too much agency staff time.

Additionally, we request that the State Water Board separate the new data collected from any previous data collected voluntarily or during emergency regulations.

Residential Gallons per Capita Per Day

Desert Water Agency asks that the State Water Board consider removing population and percentage residential use from the reporting requirement. During the drought, residential gallons per capita per day became a proxy for efficiency – this was inappropriate and posed significant challenges to Desert Water Agency and its customers.

We're live in exceptionally hot, arid conditions and that impacts water use. Additionally, lot sizes here are larger because of inland development patterns.

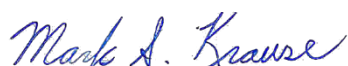

For Desert Water Agency, population is a significant issue. Our population fluctuates significantly from month to month and even from year to year based on events, tourism, weather and a host of other factors. We have a large portion of part-time residents who are not reflected in Census data. Monthly data on population with any level of accuracy simply doesn't exist.

Additionally, there is a discrepancy between what agencies consider or meter as residential use. It is impossible to ensure consistency here due to various metering practices. Here are some examples of challenging classification scenarios: apartment complexes; mobile home parks that serve mobile homes and transient RVs; HOAs with meters that serve both a golf course and indoor water use, a mixed use building with one meter, extended stay hotels, homeless shelters. Additionally, the housing shortage in California has really pushed residential use into less traditional settings.

Given that R-GPCD is not an appropriate metric to measure efficiency and is misleading, Desert Water Agency asks that the rule not include it. If R-GPCD is retained as a water use reporting metric, we request that the above disclaimer language be included as a footnote in any publicly-accessible reporting of R-GPCD values for urban water suppliers.

Thank you for considering these comments. If you have questions, please contact our Outreach & Conservation Manager, Ashley Metzger (ashley@dwa.org, 760-323-4971 ext 184).

Sincerely,

Mark S. Krause
General Manager-Chief Engineer
Desert Water Agency

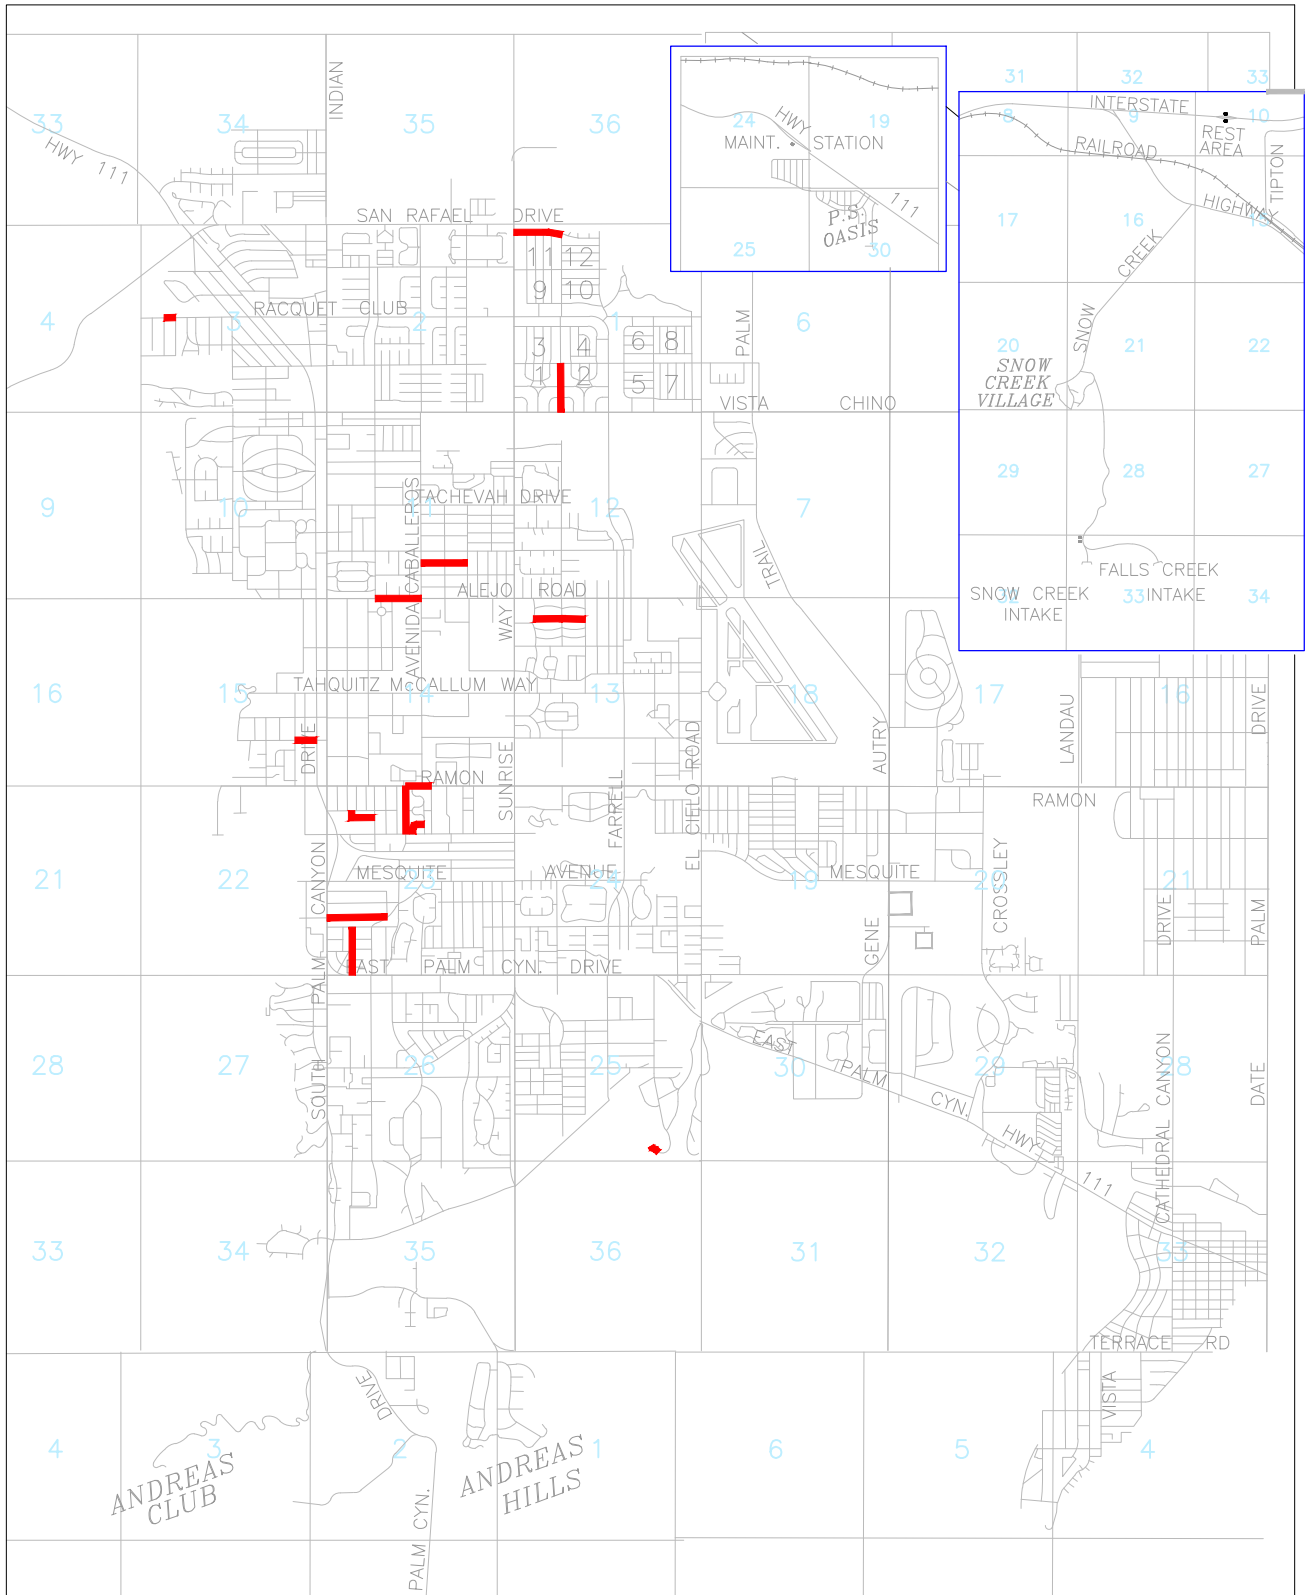

DWA will be closed on Monday, February 17 in observance of the Presidents' Day holiday.

Minutes
Executive Committee Meeting
January 30, 2020

Directors Present: Kristin Bloomer, Craig Ewing

Staff Present: Mark Krause, Steve Johnson, Esther Saenz, Sylvia Baca

1. Discussion Items

A. Review Agenda for February 4, 2020 Regular Board Meeting

The proposed agenda for the February 4, 2020 meeting was reviewed.

B. Coordination with the City of Palm Springs for Paving Work and New Replacement Pipeline Project

Staff informed the Committee of the coordination with the City on its street rehabilitation work and the Agency's new replacement pipeline project.

C. Board Room Updates

Staff informed the Committee of new lighting to be installed and discussed security measures for the Board room.

D. CSDA Board of Directors Call for Nominations Seat B

Staff provided the Committee with CSDA's Call for Nominations notice. It was requested that any Board member interested in serving contact Sylvia Baca.

2. Other - None

3. Adjourn

DESERT WATER AGENCY
OUTREACH & CONSERVATION
ACTIVITIES

JANUARY 2020

Activities:

- 1/02 Ashley Metzger was on a live segment with KESQ regarding the snowpack survey.
- 1/08 Ashley Metzger attended OneFuture CV Regional Plan Retreat at UCR Palm Desert.
- 1/09 Ashley Metzger attended the ONE-PS meeting and gave a brief update.
- 1/09 Xochitl Peña was on a live segment with KESQ regarding CV Water Counts Academy.
- 1/09 Ashley Metzger attended the Desert Valley Business Association Public Officials lunch meeting.
- 1/11 Ashley Metzger staffed a table at the Palm Springs Farmer's Market.
- 1/14 Ashley Metzger attended a CAI meeting and presented on managing HOA water use.
- 1/14 Elise Shtayyeh joined the Outreach & Conservation department for a 20-week internship.
- 1/15 Ashley Metzger and Vicki Petek attended Customer Service training at DWA.
- 1/16 Ashley Metzger was on a live segment with KESQ regarding HOA water savings.
- 1/21 Vicki Petek and Xochitl Peña attended the CV Water Counts meeting.
- 1/23 Ashley Metzger was on a live segment with KESQ regarding Help2Others.
- 1/23 Ashley Metzger attended a CTE (Career Technical Education) event at Palm Springs Unified School District.
- 1/24 Ashley Metzger and Xochitl Peña recorded a radio spot for Mod FM (107.3).
- 1/24 Staff presented the Help2Others program at Desert Aids Project.
- 1/28 Staff partnered with United Way of the Desert on a sign-up fair for Help2Others program at Mizell Senior Center.
- 1/28 Mark Krause provided a comment to The Desert Sun regarding the lawsuit filed by the Agua Caliente Band of Cahuilla Indians on January 21.
- 1/30 Ashley Metzger attended an Earth Day Challenge meeting at Palm Springs City Hall.
- 1/30 Ashley Metzger was on a live segment with KESQ regarding Super Bowl water saving tips.
- 1/30 Xochitl Peña was on the Joey English radio show.
- 1/30 DWA submitted a comment letter to the State Water Board on Monthly Reporting.
- 1/31 Ashley Metzger attended the Agua Caliente Water Authority board meeting.

Jan 29 - Road work on Indian at Tahquitz (northbound)

Tomorrow (Wednesday, Jan 29), from about 10 a.m. to 3 p.m. Desert Water Agency will pave over the new water line for the Agua Caliente's new Cultural Center. One northbound lane should remain open throughout the project. Please expect traffic delays if you are headed north on Indian passing Tahquitz. The Tribe also has a

Water line work on Agua Caliente's Cultural Center starts today

Desert Water Agency crews are installing a water service line at the request of the Agua Caliente Band of Cahuilla Indians for its new Cultural Center at Indian Canyon and Andreas Road in Palm Springs. Work along Indian Canyon Drive started Tuesday, Jan. 21 and should be completed by the end of the month. Here's what
